Section 1 – Definitions

- A. “Board of Health” means the Cuyahoga County District Board of Health.
- B. “Cat” means any domestic feline animal of the species Felis catus
- C. “Contact” means any susceptible animal that directly or indirectly has come in contact with a rabid or suspected rabid animal.
- D. “Dog” means any domestic canine animal of the species Canis familiaris
- E. “Exposure” means an animal bite or scratch that breaks human skin, or contact of animal saliva or nervous tissue with a break in human skin or any mucous membrane.
- F. “Feral” means any susceptible domestic animal living in the wild state.
- G. “Ferret” means a carnivorous mammal of the species Mustela putorius furo.
- H. “Health Commissioner” means the person occupying the office in the Cuyahoga County General Health District which is created by Section 3709.11 of the Revised Code of Ohio
- I. “Immunization” means the administration of a biological product recommended in the U.S. Public Health Service Center for Disease Control Animal Rabies Vaccine Compendium and licensed by the U.S. Department of Agriculture and deemed adequate to provide protection to the animal so vaccinated to rabies.

- J. "Isolation" means the placing of a rabid animal or suspected rabid animal or a contact separate and apart from all other susceptible animals or persons so that the transmission of rabies is impossible.
- K. "Owner" means any person who has right of property to a dog, cat or ferret, keeps, feeds or harbors a dog, cat or ferret, has a dog, cat or ferret in his care or shelter, or willingly permits a dog, cat or ferret to remain on any premises owned or occupied by him.
- L. "Person" means any political subdivision, special district, public or private corporation, individual, firm, partnership, association, or any other entity within the Cuyahoga County General Health District.
- M. "Quarantine" means the limitation of freedom of movement of rabid or suspected rabid animals or contact for a period of time equal to the longest usual incubation period of the disease, in such manner as to prevent the spread of the rabies virus. Quarantine includes: The isolation of the animal, The control of contacts.
- N. "Rabid Animal" means any animal showing observable clinical signs of rabies or which has been confirmed as having rabies by a laboratory acceptable to the Health Commissioner.
- O. "Stray" means any animal whose owner cannot be identified or any animal that cannot be apprehended and quarantined for observation.
- P. "Susceptible Animal" means any animal to which rabies can be transmitted.
- Q. "Suspected Rabid Animal" means a susceptible animal showing, to a limited degree, observable clinical signs of rabies or a susceptible animal that has bitten a person or has come in contact with a person in such manner that rabies could be transmitted to that person.
- R. "Veterinarian" means a veterinarian duly licensed under the laws of the State of Ohio.
- S. "Wild Animal" means any warm blooded non-domestic animal which is indigenous to the State of Ohio and capable of transmitting rabies.

Section 2 – Vaccination of Dogs, Cats and Ferrets Required

- A. Any person who owns a dog, cat or ferret in the Cuyahoga County District Board of Health's jurisdiction shall have these animals immunized against the rabies virus within thirty (30) days after these animals have reached three (3) months of age using a vaccine and method listed in the current Compendium of Animal Rabies Control.
- B. Each dog, cat, or ferret shall be re-immunized one (1) year after the initial rabies vaccination and thereafter at intervals according to recommendation of the current Compendium of Animal Rabies Control for the vaccine used.
- C. Rabies immunizations shall be administered only by a veterinarian or under the direct supervision of a veterinarian.
- D. If rabies immunization of dogs, cats or ferrets is contradicted for medical reasons, these reasons shall be documented in written form by a veterinarian, a copy of which shall be given to and retained by the owner.
- E. Each dog, cat or ferret imported into the jurisdiction of the Cuyahoga County District Board of Health must be accompanied by proof of current rabies vaccination. This requirement does not apply to transient animals.

- F. Dogs, cats or ferrets confined for the purpose of research are exempt from rabies vaccination requirements as long as the person conducting the research is licensed under the Federal Laboratory Animal Welfare Act.

Section 3 – Vaccination Record Required

- A. All veterinarians, or authorized persons, immunizing or re-immunizing dogs, cats, and ferrets shall keep a record of such immunization or re-immunization and shall give to the owner of the dog, cat or ferret immunized or re-immunized a completed certificate of immunization which shall include a rabies tag number identifying the individual record, a complete description of the dog, cat or ferret, place where the animal is harbored, name of the owner and his address, date and type of immunization or re-immunization and such other pertinent information as needed and the signature and address of the veterinarian or authorized person.
- B. The veterinarian, or authorized person, who vaccinates a dog, cat, or ferret, shall forward, within thirty (30) working days the information required on the certificate described in this section to the Board of Health and shall hold the rabies vaccination certificate for the interval between vaccinations.
- C. The certificate described in section 3 (A) shall be on forms prescribed by the Board of Health.
- D. All veterinarians, or authorized persons, who immunize or re-immunize a dog, cat, or ferret against rabies shall provide a tag issued by the Board of Health which shall be serially numbered and stamped with the year of vaccination and a phone number at which the animal's rabies vaccination status can be verified.
- E. Failure of the owner of a dog, cat, or ferret to provide a certificate of vaccination for the dog, cat or ferret is a presumption that the dog, cat, or ferret is not currently vaccinated for rabies.

Section 4 – Report of Animal Bites Required

- A. Whenever a person is bitten, scratched or otherwise exposed to a susceptible animal, the physician in attendance, person in charge of a hospital, dispensary, clinic, or other institution providing care or treatment, the person bitten, or any individual having knowledge of a bite shall report the bite within twenty-four (24) hours to the Board of Health.
- B. This report shall include the name, age, address and telephone number of the person bitten, the part of the body where the bite was inflicted and, if known, the name, address and telephone number of the owner of the biting animal. The report shall also include a description of the animal and, if known, the veterinarian administering the rabies immunization.

Section 5 – Quarantine, Observations and Examinations

- A. Whenever it is reported that a dog, cat, or ferret has bitten, scratched, or otherwise exposed a person, the Health Commissioner shall have the animal quarantined, at the expense of the owner, for a period of ten (10) days from the date of the exposure and have the animal observed, by a veterinarian or Board of Health representative, for clinical signs of rabies at the end of the quarantine. Animals confined indoors must be confined to a house, building or other enclosure in such a

way that human contact other than the owner and/or owners cannot occur. Animals confined outdoors must be kept on a leash, under direct supervision of a responsible person, or in an enclosure to prevent contact with other susceptible animals.

- B. If at any time during the quarantine there is any doubt as to the diagnosis, or if the animal dies, the attending veterinarian, owner or person caring for the animal shall, after the death of the animal, deliver, or arrange for delivery to the laboratory of the Ohio Department of Health, the head of the suspected rabid animal for rabies examination and analysis.
- C. Quarantined dogs, cats and ferrets shall be examined at the end of the ten (10) day quarantine by a veterinarian or Board of Health representative for clinical symptoms of rabies. The examination shall be at the owner's expense. The veterinarian shall promptly report the conclusions reached as a result of the examination. No dog, cat or ferret shall be released from quarantine until it has been examined for clinical signs of rabies by a veterinarian or Board of Health representative and properly immunized against the rabies virus.
- D. If the dog, cat or ferret is a stray, the Health Commissioner shall either:
 - 1. Order the quarantine the animal at a suitable location for ten (10) days from the date of exposure and have the animal examined for clinical symptoms of rabies.
 - 2. Direct the sacrifice of the animal by a suitable humane method that does not damage the animal's head. The Health Commissioner shall direct the removal of the animal's head by a veterinarian, animal handler, or Board of Health representative, and submit the head to the Ohio Department of Health laboratory for rabies examination.
- E. Whenever it is reported that any susceptible animal other than a dog, cat or ferret has exposed a person, the Health Commissioner shall either:
 - 1. Direct the immediate sacrifice of the animal in a humane method that does not damage the animal's head. The Health Commissioner shall also direct the removal of the animal's head and submit the head to the Ohio Department of Health laboratory for rabies examination. If the animal is owned, the above will be conducted at the owner's expense.
 - 2. Order the quarantine of the animal for a period to be determined by the Health Commissioner. If the animal dies before the end of the quarantine period, the owner shall immediately inform the Health Commissioner. The Health Commissioner shall direct the removal of the animal's head and submit the head to the Ohio Department of Health laboratory for rabies examination.
- F. No person shall kill a quarantined animal until the quarantine period has been completed and the animal has been examined for clinical signs of rabies by a veterinarian or Board of Health representative, except that this prohibition shall not apply to the humane killing of an animal to prevent further injury or suffering if the animal is diseased or seriously injured, the temperament of the animal makes it unsafe to handle during the quarantine, or if the sacrifice of a stray animal is

directed by the Health Commissioner. If an animal is euthanized prior to the completion of its quarantine, the animal must be submitted for rabies testing to the Ohio Department of Health laboratory.

- G. No person shall remove a quarantined animal from the Cuyahoga County General Health District until the quarantine period has been completed, without the permission of the Health Commissioner.
- H. No person shall transfer ownership of a quarantined animal until the quarantine period has been completed except that a person may transfer an animal to a location deemed suitable by the Health Commissioner for quarantine.
- I. No animal shall be immunized against rabies while under quarantine.

Section 6 – Administration

- A. The Board of Health shall furnish and supply all forms and tags used in the administration and enforcement of the health regulations concerning the immunization of dogs, cats and ferrets against rabies.
- B. Whenever in the judgment of the Board of Health rabies is prevalent, the Board shall declare a quarantine of all dogs, cats and ferrets in the Health District, or part thereof. During such quarantine, the owner, keeper or harbinger of any dogs, cats or ferrets shall keep these animals confined to the premises of the owner, keeper or harbinger, or in a suitable pound or kennel, if such a pound or kennel is provided by the City or County. A dog, cat or ferret may be permitted to leave the premises of the owner, keeper or harbinger if under leash or under the control of a responsible person. The quarantine order shall be considered an emergency and need not be published. When a quarantine of dogs, cats and ferrets has been declared, the County Dog Warden and all other persons having the authority of police officers shall assist the health authorities in enforcing the quarantine order.
- C. No person shall violate a rabies quarantine order issued under Ohio Revised Code 955.26 (ORC 955.39)
- D. The Board of Health shall issue to the owner of a dog, cat or ferret a rabies immunization tag and certificate, after immunization by a veterinarian. These tags shall be distributed by the veterinarian administering the vaccination.
- E. The Board of Health shall collect a fee for the rabies immunization tag and certificate established under Ohio Revised Code 3709.09. Any such fee shall be used by the Board of Health to administer the program, defray the costs of procuring and distributing rabies immunization tags and certificates, for surveillance of rabies occurrence within the General Health District, and for educational efforts promoting the vaccination and rabies awareness.

Section 7 – Unconstitutionality Clause

Should any section, paragraph, sentence, clause, or phrase of this regulation of the Cuyahoga County District Board of Health be declared unconstitutional or invalid for any reason, the remainder of said regulation shall not be affected thereby.
