YOUR TRUSTED SOURCE FOR PUBLIC HEALTH INFORMATION

April 11, 2019

## **PARKING LOT REPAIR**

The front parking lot of our building will be closed due to construction beginning Friday, April 12. The project is expected to be done by the middle of May depending on weather.

## **PUBLIC ACCESS TO THE BUILDING**

Visitors will be able to enter the front doors of our building during construction. A construction safety zone will be created with fencing, which will allow visitors to come through the front door using a walkway from the side parking lot.

## **WHEELCHAIR ACCESS**

During the paving portion of the work, wheel chair access in the front area will be limited due to the temporary lack of a ramp. Visitors needing wheel chair access may enter the building using the rear parking lot. CCBH staff will be available to help visitors move from their car through the building. Please call 216.201.2000 before coming to the building for assistance and instructions.

## **ONE LANE OF TRAFFIC**

Entry to and exit from our building will be open using one lane of traffic, extending from the apron of the main driveway to the rear of the building.

Please drive slowly, look for oncoming traffic, and follow the signs.

## **WORKER SAFETY**

We ask for your help in protecting the safety of the crew working on this project. Please be on the lookout for people and vehicles moving through the areas in front of and next to our building.

## **THANK YOU FOR YOUR COOPERATION**

We appreciate your patience during this construction period. Please call us at 216.201.2000 with questions.
