

Cleveland TGA Service Definition

For each funded service, a Cleveland TGA definition has been developed based on guidelines provided by HRSA, the intent of the local Planning Council and standards of practice determined by the grantee.

Please note: The Ryan White Part A Program is the “payer of last resort.” This means providers must make reasonable efforts to identify and secure other funding sources outside of Ryan White legislation funds, whenever possible. Part A funds are intended to be “the payer of last resort” for the provision of care. Providers are responsible for verifying an individual’s eligibility by investigating and eliminating all other potential billing sources for each service, including public insurance programs, or private insurance. Part A funds may not be used to supplant partial reimbursements from other sources to make up any un-reimbursed portion of the cost of such services.

CORE SERVICE:

Service: Home Health Care

Home Health Care is the provision of services in the home that are appropriate to a client’s needs and are performed by licensed professionals. Services must relate to the client’s HIV disease and may include:

- Administration of prescribed therapeutics (e.g. intravenous and aerosolized treatment, and parenteral feeding)
- Preventive and specialty care
- Wound care
- Routine diagnostic testing administered in the home
- Other medical therapies

Services require a medical referral stating the need for home health services and the expected length of care. The provision of Home Health Care is limited to clients that are homebound. Home settings do not include nursing facilities or inpatient mental health/substance abuse treatment facilities.

Unit of Service: 1 unit = 60 minute visit
