Prevent Premature Fatherhood (PPF) Program

Program provides group facilitation to male youth, ages 12-19.

Group discussions are centered around topics related to relationships, sexual health and life planning and are often guided by a male facilitator.

Topics are available for a single session or as a series of five (5) sessions. Refreshments can be provided.

Session Topics

Consent

Exploring the concept of consensual vs. non-consensual sex. Also educating youth about Ohio laws surrounding age and ability to consent and sexting.

Exploring the Role of Gender

Discussion of traditional gender roles as they relate to behaviors, expectations, and portrayals of masculinity.

Healthy Relationships

Defining features of a Healthy relationship while also discussing coercion issues, teen dating violence, and resources for help.

Sexual Health: The Basics

Discussion of symptoms, treatment and prevention of sexually transmitted infections (STI). Youth will be provided with clinical resources.

Sexual Health: Life Planning

Introduction to the concept of Reproductive Life Planning. Discussion will focus on how having a baby prematurely would impact life plans, general overview of birth control options and emphasis on male involvement in birth control decision-making.
